

## Anti-gp120/160(mac239)

|               |                                                             |
|---------------|-------------------------------------------------------------|
| Cat No.:      | 01-01-3519                                                  |
| Product Name: | Anti-gp120/160(mac239)                                      |
| Description:  | Anti-gp120/160(mac239)                                      |
| Type:         | Antibody                                                    |
| Property:     | Rabbit IgG                                                  |
| Source:       | Rabbit Polyclonal Antibody                                  |
| Applications: | WB                                                          |
| Formulation:  | Each vial contains 100                                      |
| Immunogen:    | gp120(SIV/mac239) protein (Genebank accession M33262)       |
| Specificity:  | Reacts with SIV gp120/160 proteins.                         |
| Purity:       | >95%                                                        |
| Storage:      | Store at -20°C,Avoid freeze / thaw cycle.                   |
| Limitation:   | For research use only,not for use in diagnostic procedures. |
