

Mouse RELT-mIgG2a

Cat No.:	03-04-1434
Product Name:	Mouse RELT-mIgG2a
Description:	RELT/TNFRSF19L is a member of the TNF-receptor superfamily. This receptor is especially abundant in hematologic tissues. It has been shown to activate the NF-kappaB pathway and selectively bind TNF receptor-associated factor 1 (TRAF1). This receptor is capable of stimulating T-cell proliferation in the presence of CD3 signaling, which suggests its regulatory role in immune response.
Type:	Protein
Property:	Q8BX43 (aa.32-169)
Source:	HEK293
Genbank No.:	Q8BX43
Applications:	WB,ELISA,Immunogen
Formulation:	Each vial contains 50
Purity:	>95%
Storage:	Store at -80°C,Avoid freeze / thaw cycle.
Limitation:	For research use only,not for use in diagnostic procedures.
