

Monkey PD-1-hlgG4

| Cat No.: | 03-04-0082 |
|---------------|--|
| Product Name: | Monkey PD-1-hlgG4 |
| Description: | Programmed cell death protein 1, also known as PD-1 and |
| | CD279,functions as an immune checkpoint, plays an |
| | important role in down regulating the immune system by |
| | preventing the activation of T-cells, which in turn reduces |
| | autoimmunity and promotes self-tolerance, by interaction |
| | with its ligands PD-L1/PD-L2 on APC/Treg (or cancer) cells. |
| | The inhibitory effect of PD-1 is accomplished through a dual |
| | mechanism of promoting apoptosis (programmed cell death) |
| | in antigen specific T-cells in lymph nodes while |
| | simultaneously reducing apoptosis in regulatory T cells |
| | (suppressor T cells). |
| Туре: | Protein |
| Property: | Protein |
| Source: | HEK293 |
| Genbank No.: | NP_001107830 (aa.25-167) |
| Applications: | WB,ELISA,Immunogen |
| Formulation: | Each vial contains 50 |
| Purity: | >95% |
| Storage: | Store at -80°C,Avoid freeze / thaw cycle. |
| | |

Limitation: For research use only,not for use in diagnostic procedures.
