

## **S (RBD) (Bat SARS-like coronavirus/WIV1)**

|               |                                                              |
|---------------|--------------------------------------------------------------|
| Cat No.:      | 01-03-0019                                                   |
| Product Name: | S (RBD) (Bat SARS-like coronavirus/WIV1)                     |
| Description:  | S (RBD) (Bat SARS-like coronavirus/WIV1)                     |
| Type:         | Protein                                                      |
| Property:     | Purified recombinant protein                                 |
| Source:       | HEK293                                                       |
| Applications: | WB standard, Ab ELISA, immunogen, etc.                       |
| Storage:      | Store at -80°C, Avoid freeze / thaw cycle.                   |
| Limitation:   | For research use only, not for use in diagnostic procedures. |
