

## Biotin-Anti-human IgG1 Fc

Cat No.:	10-01-0018
Product Name:	Biotin-Anti-human IgG1 Fc
Description:	Biotin-Anti-human IgG1 Fc
Type:	IgG2a
Property:	Affinity purified IgG
Source:	Mouse, clone 22F12, IgG2a
Applications:	ELISA(1:1000-10000), etc.
Formulation:	Each vial contains 100 µg of Protein G affinity purified mouse mAb (1mg/ml) in PBS (pH7.4)
Protein:	Biotinylated mouse anti-human IgG1 Fc mAb was generated using DNA vaccine expressing human IgG1 Fc. This mAb recognizes human IgG1, but not human IgG2, IgG3, IgG4 Fc and IgM.
Storage:	For short term, store at 4°C, stable for 1 month. For long term storage, aliquot and freeze at -80 °C. Non-hazardous. No MSDS required.
Limitation:	For research use only, not for use in diagnostic procedures.
