

Early Antigen (EBV)

Cat No.: 01-11-0037

Product Name: Early Antigen (EBV)

Description: Early Antigen (EBV)

Type: Protein

Property: The E.Coli derived 35.5 kDa recombinant protein contains

the HHV-4 Early Antigen Type D, C-terminus regions

amiagno acids 306-390.

Source: E.coli

Applications: WB standard, Ab ELISA, immunogen, etc.

Formulation: Each vial contains 100 ug purified protein(1mg/ml) in

PBS(pH7.4).

Purity: >95%

Storage: Store at -80°C, Avoid freeze / thaw cycle.

Limitation: For research use only, not for use in diagnostic procedures.
