

## Anti-gH/gL (CMV)

|               |                                                                                    |
|---------------|------------------------------------------------------------------------------------|
| Cat No.:      | 01-11-0176                                                                         |
| Product Name: | Anti-gH/gL (CMV)                                                                   |
| Description:  | Anti-gH/gL (CMV)                                                                   |
| Type:         | IgG                                                                                |
| Property:     | Rabbit Polyclonal Antibody                                                         |
| Source:       | Rabbit                                                                             |
| Applications: | WB, ELISA                                                                          |
| Formulation:  | Each vial contains 100 ug purified IgG in 100 ul<br>PBS(1mg/ml) with 40% glycerol. |
| Specificity:  | Anti-gH/gL (CMV)                                                                   |
| Purity:       | >95%                                                                               |
| Storage:      | Store at -20°C, Avoid freeze / thaw cycle.                                         |
| Limitation:   | For research use only, not for use in diagnostic procedures.                       |
