

VP2 (Canine parvovirus)

Cat No.:	01-14-0001
Product Name:	VP2 (Canine parvovirus)
Description:	VP2 (Canine parvovirus)
Type:	Protein
Property:	C-terminal 6xHis tagged VP2 protein [Canine parvovirus] protein (a.a. 1-586) (Genebank Accession No. ACS50333).
Source:	E.coli
Genbank No.:	ACS50333
Applications:	WB standard, Ab ELISA, immunogen, etc.
Formulation:	Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).
Purity:	>95%
Storage:	Store at -80°C, Avoid freeze / thaw cycle.
Limitation:	For research use only, not for use in diagnostic procedures.
