

## Anti-GP(Ebola/Zaire)

|               |                                                                                                 |
|---------------|-------------------------------------------------------------------------------------------------|
| Cat No.:      | 01-06-0103                                                                                      |
| Product Name: | Anti-GP(Ebola/Zaire)                                                                            |
| Description:  | Anti-GP(Ebola/Zaire)                                                                            |
| Type:         | IgG                                                                                             |
| Property:     | Rabbit Polyclonal Antibody                                                                      |
| Source:       | Rabbit                                                                                          |
| Applications: | WB, ELISA, IP, IF                                                                               |
| Formulation:  | Each vial contains 100 ug purified IgG in 100 ul PBS(1mg/ml) with 40% glycerol.                 |
| Immunogen:    | DNA vaccine expressing glycoprotein of (Ebola/Zaire) protein (a.a.1-676) (Genebank No. U23187). |
| Specificity:  | Reacts with GP(Ebola/Zaire) glycoprotein. Cross-reactivity with other subtypes not determined.  |
| Purity:       | >95%                                                                                            |
| Storage:      | Store at -20°C, Avoid freeze / thaw cycle.                                                      |
| Limitation:   | For research use only, not for use in diagnostic procedures.                                    |
