

## Core (HCV/Genotype-1a)

|               |                                                                                                          |
|---------------|----------------------------------------------------------------------------------------------------------|
| Cat No.:      | 01-15-0017                                                                                               |
| Product Name: | Core (HCV/Genotype-1a)                                                                                   |
| Description:  | Core (HCV/Genotype-1a)                                                                                   |
| Type:         | Protein                                                                                                  |
| Property:     | C-terminal 6xHis tagged HCV core protein (Genotype-1a)<br>(a.a. 1-191) (Genbank Accession No. AFS60313). |
| Source:       | E.coli                                                                                                   |
| Genbank No.:  | AFS60313                                                                                                 |
| Applications: | WB standard, Ab ELISA, immunogen, etc.                                                                   |
| Formulation:  | Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).                                        |
| Purity:       | >95%                                                                                                     |
| Storage:      | Store at -80°C, Avoid freeze / thaw cycle.                                                               |
| Limitation:   | For research use only, not for use in diagnostic procedures.                                             |
