

## Core (HCV/Genotype-6a)

|               |                                                                                                         |
|---------------|---------------------------------------------------------------------------------------------------------|
| Cat No.:      | 01-15-0025                                                                                              |
| Product Name: | Core (HCV/Genotype-6a)                                                                                  |
| Description:  | Core (HCV/Genotype-6a)                                                                                  |
| Type:         | Protein                                                                                                 |
| Property:     | C-terminal 6xHis tagged HCV core protein (Genotype-6a)<br>(a.a.1-191) (Genbank Accession No. ABH09993). |
| Source:       | E.coli                                                                                                  |
| Genbank No.:  | ABH09993                                                                                                |
| Applications: | WB standard, Ab ELISA, immunogen, etc.                                                                  |
| Formulation:  | Each vial contains 100 ug purified protein(1mg/ml) in<br>PBS(pH7.4).                                    |
| Purity:       | >95%                                                                                                    |
| Storage:      | Store at -80°C, Avoid freeze / thaw cycle.                                                              |
| Limitation:   | For research use only, not for use in diagnostic procedures.                                            |
