

## NS5 (HCV/Genotype-3a)

|               |                                                                                                                                                                         |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Cat No.:      | 01-15-0047                                                                                                                                                              |
| Product Name: | NS5 (HCV/Genotype-3a)                                                                                                                                                   |
| Description:  | NS5 (HCV/Genotype-3a)                                                                                                                                                   |
| Type:         | Protein                                                                                                                                                                 |
| Property:     | The E.coli derived recombinant protein contains the HCV NS5 Genotype 3a immunodominant regions, amino acids 2212-2313. The protein is fused to a GST tag at N-terminus. |
| Source:       | E.coli                                                                                                                                                                  |
| Applications: | WB standard, Ab ELISA, immunogen, etc.                                                                                                                                  |
| Formulation:  | Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).                                                                                                       |
| Purity:       | >95%                                                                                                                                                                    |
| Storage:      | Store at -80°C, Avoid freeze / thaw cycle.                                                                                                                              |
| Limitation:   | For research use only, not for use in diagnostic procedures.                                                                                                            |
