

NS5 (HCV/Genotype-6a)

Cat No.:	01-15-0052
Product Name:	NS5 (HCV/Genotype-6a)
Description:	NS5 (HCV/Genotype-6a)
Type:	Protein
Property:	The E.coli derived recombinant protein contains the HCV NS5 Genotype 6a immunodominant regions, amino acids 2212-2313. The protein is fused with GST tag N-terminus.
Source:	E.coli
Applications:	WB standard, Ab ELISA, immunogen, etc.
Formulation:	Each vial contains 100 ug purified protein(1mg/ml) in PBS(pH7.4).
Purity:	>95%
Storage:	Store at -80°C, Avoid freeze / thaw cycle.
Limitation:	For research use only, not for use in diagnostic procedures.
