

## Anti-HDAg(2a)

|               |                                                                                 |
|---------------|---------------------------------------------------------------------------------|
| Cat No.:      | 01-15-0146                                                                      |
| Product Name: | Anti-HDAg(2a)                                                                   |
| Description:  | Anti-HDAg(2a)                                                                   |
| Type:         | IgG2a                                                                           |
| Property:     | Mouse monoclonal Antibody                                                       |
| Source:       | Mouse                                                                           |
| Applications: | WB, ELISA, IP, IF                                                               |
| Formulation:  | Each vial contains 100 ug purified IgG in 100 ul PBS(1mg/ml) with 40% glycerol. |
| Immunogen:    | Recombinant small delta antigen (Hepatitis delta virus) protein                 |
| Specificity:  | Reacts with HDAg(2a). Cross-reactivity not tested.                              |
| Purity:       | >95%                                                                            |
| Storage:      | Store at -20°C, Avoid freeze / thaw cycle.                                      |
| Limitation:   | For research use only, not for use in diagnostic procedures.                    |
